PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1c (DIA). The photographic analysis for this particular report was performed by the Production Center 1P1c.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (I) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A possible military storage area (49-47-31N 024-53-35E) is located one kilometer (km) southwest of Zolochiv (Figure 1). Facilities consist of one administration building, three multistory storage buildings, two storage buildings, and six support buildings. The installation (Figures 2 and 3) is fenced and is served by a good access road to the main Brody-Ternopol highway. Also associated with this installation is an adjacent ammunition storage area consisting of two explosives buildings, two ammu-

nition bunkers, one general storage and one probable supply building.

A possibly associated underground POL storage area is located 260 meters southeast. Facilities consist of 19 underground storage tanks, one administration building, four storage buildings and five support buildings. The area is rail and road served.

The area was covered by [REDACTED] KEYHOLE missions between [REDACTED]

DESCRIPTION OF INSTALLATION

Railroad Service

The POL storage area is rail served.

Road Service

A good all-weather road serves both installations.

General Storage Area

Area E contains one administration building, three multistory storage buildings, two storage buildings, and six support buildings.

Ammunition Storage Area

Area F contains two 40- by 40-foot explosives buildings, two ammunition bunkers less than 20 by 20 feet, one general storage building less than 20 by 20 feet, and one probable 135-foot supply building.

POL Storage Area

Area G contains one administration building, four storage buildings, five support buildings, and 19 underground storage tanks of undetermined dimensions.
